STRATEGY DESCRIPTION

Our SMID-cap growth strategy is designed to deliver significant capital appreciation over time while also providing stability during market downturns. We seek to achieve this through a proprietary investment process that combines bottom-up stock selection with top-down thematic investing, and a judicious mix of “stable growth” and “emerging growth” companies in the portfolio.

STRATEGY HIGHLIGHTS

Style	Small to Mid cap growth
Process	Fundamental bottom-up, top-down thematic
Investment horizon	4 to 5 years
Number of holdings	50 to 75
Sector deviation	Free to deviate within a clearly defined range

INVESTMENT PROCESS

Past performance is no guarantee of future results. Inherent in any investment is the potential for loss. Performance results include the reinvestment of dividends and interest. Dividends received from ADRs are included net of foreign withholding taxes. Actual returns will be reduced by investment advisory fees and other expenses that may be incurred in the management of the account. Gross performance results are presented before management fees, but after all trading commissions. Net of fee performance includes all fees and expenses except custody fees and was calculated using the highest applicable annual management fee of 1%, applied monthly.

Index Definitions The Russell 2500 Growth Index offers investors access to the small to mid-cap growth segment of the U.S. equity universe. The Russell 2500 Growth Index is constructed to provide a comprehensive and unbiased barometer of the small to mid-cap growth market. Based on ongoing empirical research of investment manager behavior, the methodology used to determine growth probability approximates the aggregate small to mid-cap growth manager's opportunity set. The Russell 2500 Growth Index is completely reconstituted annually to ensure larger stocks do not distort the performance and characteristics of the true small-cap opportunity set and that the represented companies continue to reflect growth characteristics. Typically, the Small/Mid Cap Growth portfolio is similar in composition to the benchmark except to the extent that the firm utilizes ADRs that are not included in the domestic index. Portfolios are generally comprised of individual stocks and cash equivalents. It is not possible to invest directly in an index. **Composite Description** The Small/Mid Cap Growth composite was created on April 1, 2000 and includes all portfolios invested in U.S. equities (including ADRs) with strong earnings and growth characteristics and mid to small capitalizations.
