Fiera Capital Corporation ("Fiera Capital") is a global independent asset management firm that delivers customized multi-asset solutions across public and private classes to institutional, financial intermediary and private wealth clients across North America, Europe and key markets in Asia and the Middle East. Fiera Capital trades under the ticker FSZ on the Toronto Stock Exchange. Fiera Capital does not provide investment advice to U.S. clients or offer investment advisory services in the US. In the US, asset management services are provided by Fiera Capital's affiliates who are investment advisers that are registered with the U.S. Securities and Exchange Commission (the "SEC") or exempt from registration. Registration with the SEC does not imply a certain level of skill or training. Each affiliated entity (each an "Affiliate") of Fiera Capital only provides investment advisory or investment management services or offers investment funds in the jurisdictions where the Affiliate and/or the relevant product is registered or authorized to provide services pursuant to an exemption from registration.

This document is strictly confidential and for discussion purposes only. Its contents must not be disclosed or redistributed directly or indirectly, to any party other than the person to whom it has been delivered and that person's professional advisers.

The information presented in this document, in whole or in part, is not investment, tax, legal or other advice, nor does it consider the investment objectives or financial circumstances of any investor. The source of all information is Fiera Capital unless otherwise stated.

Fiera Capital and its Affiliates reasonably believe that this document contains accurate information as at the date of publication; however, no representation is made that the information is accurate or complete and it may not be relied upon. Fiera Capital and its Affiliates will accept no liability arising from the use of this document.

Fiera Capital and its Affiliates do not make recommendations to buy or sell securities or investments in marketing materials. Dealing and/or advising services are only offered to qualified investors pursuant to applicable securities laws in each jurisdiction.

Past performance of any fund, strategy or investment is not an indication or guarantee of future results. Performance information assumes the reinvestment of all investment income and distributions and does not account for any fees or income taxes paid by the investor. All investments have the potential for loss. Target returns are forward-looking, do not represent actual performance, there is no guarantee that such performance will be achieved, and actual results may vary substantially.

This document may contain "forward-looking statements" which reflect the current expectations of Fiera Capital and/or its Affiliates. These statements reflect current beliefs, expectations and assumptions with respect to future events and are based on information currently available. There is no obligation for Fiera Capital and/or its Affiliates to update or alter any forward-looking statements, whether as a result of new information, future events or otherwise.

Strategy data such as ratios and other measures which may be presented herein are for reference only and may be used by prospective investors to evaluate and compare the strategy. Other metrics are available and should be considered prior to investment as those provided herein are the subjective choice of the manager. The weighting of such subjective factors in a different manner would likely lead to different conclusions.

Strategy details, including holdings and exposure data, as well as other characteristics, are as of the date noted and subject to change. Specific holdings identified are not representative of all holdings and it should not be assumed that the holdings identified were or will be profitable.

Certain fund or strategy performance and characteristics may be compared with those of well-known and widely recognized indices. Holdings may differ significantly from the securities that comprise the representative index. It is not possible to invest directly in an index. Investors pursuing a strategy like an index may experience higher or lower returns and will bear the cost of fees and expenses that will reduce returns, whereas an index does not. Generally, an index that is used to compare performance of a fund or strategy, as applicable, is the closest aligned regarding composition, volatility, or other factors.

Every investment is subject to various risks and such risks should be carefully considered by prospective investors before they make any investment decision. No investment strategy or risk management technique can guarantee returns or eliminate risk in every market environment. Each investor should read all related constating documents and/or consult their own advisors as to legal, tax, accounting, regulatory, and related matters prior to making an investment.

The ESG or impact goals, commitments, incentives and initiatives outlined in this document are purely voluntary, may have limited impact on investment decisions and/or the management of investments and do not constitute a guarantee, promise or commitment regarding actual or potential positive impacts or outcomes associated with investments made by funds managed by the firm. The firm has established, and may in the future establish, certain ESG or impact goals, commitments, incentives and initiatives, including but not limited to those relating to diversity, equity and inclusion and greenhouse gas emissions reductions. Any ESG or impact goals, commitments, incentives and initiatives referenced in any information, reporting or disclosures published by the firm are not being promoted and do not bind any investment decisions made in respect of, or stewardship of, any funds managed by the firm for the purposes of Article 8 of Regulation (EU) 2019/2088 on sustainability-related disclosures, in the financial services sector. Any measures implemented in respect of such ESG or impact goals, commitments, incentives and initiatives may not be immediately applicable to the investments of any funds managed by the firm and any implementation can be overridden or ignored at the sole discretion of the firm. There can be no assurance that ESG policies and procedures as described herein, including policies and procedures related to responsible investment or the application of ESG-related criteria or reviews to the investment process will continue; such policies and procedures could change, even materially, or may not be applied to a particular investment.

The following risks may be inherent in the funds and strategies mentioned on these pages.

Equity risk: value of stock may decline rapidly and can remain low indefinitely. Market risk: the market value of a security may move up or down based upon a change in market or economic conditions. Liquidity risk: the strategy may be unable to find a buyer for its investments when it seeks to sell them. General risk: any investment that has the possibility for profits also has the possibility of losses, including loss of principal, ESG and Sustainability risk may result in a material negative impact on the value of an investment and performance of the portfolio. Geographic concentration risk may result in performance being more strongly affected by any conditions affecting those countries or regions in which the portfolio's assets are concentrated. Investment portfolio risk: investing in portfolios involves certain risks an investor would not face if investing in markets directly. Operational risk may cause losses as a result of incidents caused by people, systems, and/or processes. Projections and Market Conditions: We may rely upon projections developed by the investment manager or a portfolio entity concerning a portfolio investment's future performance. Projections are inherently subject to uncertainty and factors beyond the control of the manager and the portfolio entity. Regulation: The manager's operations may be subject to extensive general and industry specific laws and regulations. Private strategies are
